Individual skin treatment for our clients

When you look in the mirror, are you completely happy with the appearance of your skin, or do you worry about blemishes you have acquired over the years? Few people are blemish-free, but a lot can be done to remove minor imperfections, especially with the help of an expert like Sally Durant. Sally runs Springhill Clinic in Bewdley, a specialist skin care centre concentrating on skin health restoration.

Sally has an excellent background in her field, having trained at the exclusive Champneys Health Resort, and also having 20 years experience in training and examining beauty therapy students at national level.

She established her clinic in 2003, and now uses a number of therapeutic techniques and systems, including Crystal Clear microdermabrasion for resurfacing the skin, the full range of Guinot treatments including the famous rebalancing and deep cleansing Hydradermie, and Dermalogica skin care prescriptions.

If you attend Springhill Clinic as a new client, Sally will first of all undertake an in-depth consultation to identify lifestyle influences, diet, and other factors to design an individual skin treatment programme for you.

If you have any imperfections causing

you concern, Sally also specialises in the safe permanent removal of minor blemishes through advanced electrology techniques.

Such blemishes include the following: Thread veins and 'spider marks' Basically these are little blood capillaries visible on the skin surface due to trauma, sun damage, and fine, sensitive skin. The vessels are sealed off by the technique used, and will be permanently removed.

One of the UK's leading consultants

Do you need the Hair Doctor?

If you are having a hair colour crisis and you live in the Midlands - well actually anywhere in the UK - then your first port of call has got to be The Hair Doctor herself, Lisa Shepherd. One of the UK's leading hair colourists and renowned colour correction expert.

Lisa has been correcting hair colour for over 15 years and since opening up her salon, her name has become synonymous with expert hair colouring and has become a mecca for those in need of some serious 'Hair Doctoring!' Her reputation for tackling hair colour disasters that other hairdressers would run a mile from is legendary in industry and media circles.

Her influence and reputation extends nationwide and she is often called upon for advice on celebrity colour disasters and to demonstrate her colour skills on TV and in the national press.

Having recently demonstrated the power of good hair colour on GMTV's LK today, Lisa is about to film a pilot for a new TV show. "We are on the look out for some great personalities and for people who have a great hair disaster story ... and of course have hair in a crisis!" explains Shepherd. "The show should air early next year, so keep your eyes peeled".

With all this TV activity it seems

incredible that at the same time Lisa Shepherd Salons is set to expand with the opening of the second salon in Whitehouse Common Road, Sutton Coldfield. Headed up by the Award Winning Emma Steven - one of Lisa's most senior staff, the salon will offer the same excellence as the Kidderminster salon and is the first of several planned new sites.

Keeping up the pace, the salon in Mill Street, Kidderminster is also about to undergo its very own Makeover with a stylish refurbishment. "It isn't going to change dramatically", says Shepherd "just a few new touches to keep up with client demands and to always remain one step ahead!" So those used to the busy, yet relaxed atmosphere of the converted Mill will not be disappointed by the update and those who are yet to visit, can book now to experience the new look salon.

Over the past five years, since opening her salon, Lisa hit the industry by storm, winning numerous awards and winning over the beauty press with her down-to-earth manner and technical knowledge whilst the whole team continue to dominate the industry awards. Artistic Director, Tim Scott-Wright who heads up the Artistic Team is the current Midlands Hairdresser of the Year - for the second year running. Whilst Emma Steven is current Newcomer of the Year

and Natasha Steele was selected for Project X by the Fellowship for British Hairdressing.

Yet with a plethora of awards under their belts, the team remain grounded and down to earth, without any hints of ego or 'starriness'. Not unlike the lady

herself...

With the expanded team and second salon those few who haven't yet experienced the Lisa Shepherd Hair Doctor Treatment you really have no excuse!

Relax in our discreet and comfortable surroundings

Do you want your hair to look sensational this summer? The award-winning Abacus hair team in Bewdley have put together some sound advice on style trends, and how to care for your tresses as temperatures soar. For all the top hair tips, read on....

The theme for the summer is effortless, sexy, styled hair!

The bob is back! Take a chin length bob, soften the edges, and create an eye-skimming fringe to frame the eyes for classic glamour. Or make a statement with an asymmetric cut that accentuates and flatters the jaw line. Try using Chroma Protect on coloured hair by just applying a small amount to damp hair. This will give you a great polished finish. Long hair is loose and soft. Sexy curls and waves should be undone, and less is more to keep hair looking and feeling glossy.

With a spritz on each section of Vernis Sculpt (hair protector) use your straighteners to achieve the desired movement. Ask one of our stylists for the latest techniques on how to get the look.

Keep long hair layered as this adds an interesting touch of grown-up glamour to the cheekbones. To keep long hair in condition try using a hair treatment every few weeks such as Age Recharge by Kerastase (a favourite of ours) to strengthen and prevent split ends.

A new colour can work wonders for a style. Different shades of blonde (icy, cool

and pearly) add depth and tone, while adding caramels and bronze make it more daring. Pick two or three shades for a great combination for that sun-kissed look.

Brunettes should keep the tone rich, such as cookie and iced tea. The important thing is to keep the hair looking glossy and polished.

Keep your hair well protected in the sun, as UVA rays will strip your hair of colour (particularly reds). If you're in and out of the sea or pool, you must protect those precious locks. We recommend the Kerastase Soliel range- it has a great choice of products, from pre-swimming cream to UVA serums and refreshing soothing cleanser and geele masque to put back any lost moisture.

Tuck your hair away under a hat or headscarf. Tying long hair in a plait still looks great and will help protect your mid-lengths.

Don't forget your sun hair care to keep those great glossy tresses! (Products mentioned are by Kerastase).

Abacus offer an enviable salon service, with a specialised colour lounge, discreet and comfortable surroundings, and massaging backwash chairs for the ultimate in relaxation.

Having won the Midlands L'Oreal colour trophy in 2006 and making the regional finals this year, the team just goes from strength to strength! Kim Edwards was a

Amy Millichip winner of achiever of the year and nominees Alison Ford & Alex Robinson

regional finalist in the Young Colourist section and Adrian Arnold and Amy Millinchip were regional finalists in the Men's Image category, while Kim, salon owners Allison Ford and husband Nick

were regional finalists in the colour trophy.

In the forthcoming Protocol awards, Alex Robinson will be competing for the title of Creative Young Stylist, Amy as Achiever

of the Year, and the salon has been nominated as Employer of the Year.
