

EXPANDING INTO BATHROOMS, AND WETROOMS

White Hall has now been established at its beautiful Church Street shop for two years, and in that time has established a great reputation for its fine **Natural Stone Tiles** for kitchens, bathrooms, and gardens.

The business has now expanded further into supplying an entire range of bathroom products, attracting huge interest with the recent addition of **Wet Rooms**.

Darren Morgan, who has recently joined the company, has been instrumental in the design and installation of new bathroom settings, bringing more than 10 years experience with him.

With the expansion of the business, we are offering, in addition to the wide range of natural stone tiles, a supply only, or a complete supply and fit of all bathroom products and an extensive range of **Ceramic and Porcelain Tiles**. If you have ever renovated or are thinking of giving your bathroom a makeover, you'll know that the whole process can be quite daunting. At Whitehall, we can eliminate all the stress of choosing and installing a new bathroom.

When you choose to have your new bathroom supplied and fitted by White Hall, the entire process is carried out by our own designers and fitters, which means **No Delays**, allowing you to focus on choosing the products that will ensure you get the bathroom you want.

Our 28 Church Street premises in Hereford now also incorporate complete bathroom settings, offering the entire range of bathroom fittings, tiles and accessories, with a wonderful array of bathrooms installed on all three floors of the shop.

As owner Richard Rogers is quick to point out: "With the introduction of Darren's expertise in bathroom design, incorporating both bathroom products and tiles, the whole project can now be looked after under one roof, with huge benefits to the customer, in terms of the finished look and project coordination." If you would like a free consultancy, visit, and design for your bathroom please call or visit our Hereford shop at 28 Church Street.
