THE hair and beauty industry is ultra competitive so when a business thrives and expands you know it must be something special.

That's just the case with The Cut Hair & Beauty Studio in Malvern, which this year celebrates 11 highly successful years in business.

It has gone from strength to strength since opening in 1998, providing hair and beauty treatments within a comfortable friendly atmosphere at the salon at 12 Church Walk.

Proprietor Michelle Burns insists on the highest level of quality products, service and customer care to ensure that any client visiting returns again to relax and enjoy the various hair and beauty treatments available. Products from Wella and System Professional, plus the knowledge of The Cut's creative team, including Michelle, Sam, Beccie and Donna cater for all hair types and requirements on the ground floor.

Each client is made to feel welcome, comfortable and relaxed to ensure they leave totally satisfied and looking fantastic.

The first floor is an oasis of tranquillity. Here Sam Chaloner carries out nail and beauty treatments using brands synonymous with quality and professionalism, including the newly-appointed Guinot products and treatments such as hydradermie and liftazone.

Others include the Caci non surgical face lift, Md Formulations, Crystal Clear microdermabrasion and the ever popular Bio Sculpture gel nail treatment. Cosmetic enhancement using Restylane and semi-permanent tattooing for the eyebrows, eyeliner and lip liner are now also available and carried out by highly experienced practitioners.

The skincare range includes Guinot and facials include Hydradermie, Liftosome and Aromatics.
