Putting fun and flair into driving

THE giant Volkswagen group's brand strategy seems to go from strength to strength.

While manufacturers under its wing continue to scoop awards, Seat, with its Spanish flair, slips ahead in the competitive supermini sector by being the first in the group to get its hands on the all-new platform which this year benefits new VW models.

The practical five-door Ibiza is lighter, too, and rides in a more controlled and comfortable fashion.

Initially, Seat has concentrated on petrol power for the new model but thrifty diesels are coming on stream for those who want to save further on fuel.

Prices for the new model start at a reasonable £8,995 for the lively three-cylinder 68bhp 1.2-litre petrol, which returns a pleasing 47.8mpg during everyday driving.

But the 16-valve, 83bhp 1.4-litre four-cylinder engine is probably a better bet for many motorists, with a smoother delivery of power, stronger acceleration for overtaking and quieter cruising ability on the open road or motorway.

The 1.4-litre is also good on fuel, with a combined figure of 45.5mpg and its all-round ability making it the most popular choice in the petrol car line-up.

What is also proving a big draw with the new Ibiza is the sharper and

angular styling because it is so different from the shapely but rather bulbous appearance of the old model – and it offers a more imaginative approach than some close rivals.

The new 'arrow design' concept is very noticeable at the front of the car, where the headlights and radiator grille's lower positioning provide a more sporty appearance. The sharp-looking rear shoulders and mildly flared wheel arches also help the car stand out among modern supermini designs.

The man who styled the new car knows a thing or two about design as he is a former Lamborghini stylist with iconic supercars.

But it's not just style that is winning praise for the new Ibiza. Good build and safety credentials are evident throughout and this is endorsed by the car having gained the five-star rating in Euro NCAP safety tests.

While inside the Ibiza is roomier, the boot capacity has also benefited – up in size by 25 litres to 292 litres. In the rear, however, six-footers will still find leg room restricted if the front seats are set back.

Two large circular dials dominate the dash, which is attractive and functional. But while the inside is well laid out and well trimmed, some of the plastics don't altogether enhance the otherwise good quality of the interior.

The Ibiza does put the accent on the driver, with a lower and more sporty driving position and the car lives up to Seat's aim of putting fun and flair into motoring with safe handling into tight bends and a generally well-controlled ride.

The ride is certainly more supple and composed than before, so that the car manages to soak up all manner of road imperfections.

As usual with Seat, the standard equipment is generous and the 1.4-litre includes air conditioning, cruise control, tinted glass, radio/CD player, connection for mp3 players, electric front and rear windows, ISOFIX child seat anchorage points, ABS, immobiliser, split folding rear seats and speed sensitive electric power steering.

Options include a special satellite navigation mounting on the dash and rear parking sensors.

AT-A-GLANCE

Seat Ibiza 5-door 1.4-litre SE.

Price: £10,395 (on the road).

Top speed: 108mph.

0-62mph: 12.2 seconds.

Fuel: 45.5mpg (combined figure).

CO2 emissions (g/km): 149.

Verdict: New chassis gives good compromise between ride and handling, sharper looks, roomier, well equipped and great value.

Official Government Environmental Test Data. Fuel consumption figures mpg (litres/100km) and CO₂ emissions (g/km). Saab 9-3 Convertible Linear SE 1.8t (MY08) Manual: Urban 24.1 (11.7), Extra-Urban 42.2 (6.7), Combined 32.8 (8.6). CO₂ emissions 206g/km.

On the road prices include number plates, delivery, Vehicle Excise Duty, first registration fee and VAT. £18,995 9-3 Convertible Linear SE 1.8t offer price available at participating dealers only. Offer valid for registrations between 06.03.09 and 31.03.09 subject to availability. Available to private individuals and small businesses 1-24 (purchase only). All other sales categories are excluded; cannot be used in conjunction with any other offer or promotion. Offer available on MY08 models only. Offer may not apply to all dealer stocks. Model shown is MY08 9-3 Convertible Linear SE 1.8t current on the road list price £26,025.

Turns heads.

Now for just £18,995.

Only until 31 March, a brand new Saab 9-3 Convertible Linear SE comes at a price that's a breath of fresh air.

It also comes fully equipped and with a high specification, including dual-zone automatic climate control, 16" 14-spoke alloy wheels, cruise control and rear parking assistance.

New MINI Convertible arrives at Cotswold Hereford Saturday 28 March

NEW edition of the highly successful open four-seater accounting for worldwide sales of some 164,000 units, continuation of the third body version within the MINI model family. The new MINI Convertible symbolises the thrill of motoring in the open air and bears out the unmistakable style of the MINI brand. Moving up to an even higher standard than on the former model, the unique features of the MINI Convertible in its segment in terms of design, premium quality, handling, performance, efficiency, and functionality have been appropriately enhanced and improved to perfection.

Evolutionary enhancement of the car's design: The body with two doors and a soft roof including a separate sliding roof function ensures unique, unmatched proportions, sleek, horizontal lines, and truly individual style. Design language typical of the brand, design features and proportions clearly making the new model a genuine, fully-fledged member of the MINI product family.

Refined, sophisticated overall appearance highlighting the stretched silhouette and ensuring enhanced presence from both front and rear. Sophisticated, beautifully modelled body surfaces, roadster-like flair ensured by the low roofline, rollover safety bar hidden away out of sight. Front and rear light design as on the current MINI models. Inner-mounted four-pivot joints for the luggage compartment lid ensure a harmonious and smooth look with even greater emphasis on the wide rear end.

Electrohydraulic operation of the roof including sliding roof function featured as standard. Option to open and close the soft top while driving at a speed of up to 30 km/h or 20 mph. Optional Always-Open Timer as a special feature determining the time spent travelling with the roof down. Even wider range of paintwork colours, roof colours, wheel rims, upholstery and interior trim providing even greater freedom in customising the car. Model-specific range of optional extras and special equipment.

Newly developed, electromechanically operated rollover bar behind the rear seats, activated by the car's central safety electronics in the event of a possible rollover. The innovative, absolutely unique principle of a single-piece safety bar allows optimum visibility to the rear and facilitates visibility to the side. A further advantage is the option to integrate an exceptionally large through-loading storage option between the luggage and passenger compartments.

Outstanding functionality ensured by the flexible

storage concept. Easy-load system providing an even larger opening into the luggage compartment, rear seat backrests folding down individually and lockable in position, luggage compartment cover fastening in two positions, as required. Luggage compartment capacity increased to 125 litres (+5) (4.38 cu ft) with the roof open, 170 litres (+5) (5.95 cu.ft) with the roof closed, and 660 litres (+55) (23.10 cu ft) with the rear-seat backrest folded down.

New generation of four-cylinder petrol engines with twin-scroll turbo-chargers or, respectively, fully variable valve management. Engine capacity 1,598 cc, max output 88 kW/120 hp (MINI Cooper Convertible) and 128 kW/175 hp (MINI Cooper S Convertible). Both engine variants with a wide range of technical features serving to optimise both fuel economy and emissions: Auto Start Stop, Brake Energy Regeneration, gearshift point indicator.

Front-wheel drive, go-kart feeling typical of the brand with refined suspension technology tailored specifically to the MINI Convertible. Electric Power

Steering (EPS). Brake system with anti-lock brakes (ABS), Electronic Brake Force Distribution (EBD), Cornering Brake Control (CBC), and Brake Assistant as well as Dynamic Stability Control (DSC) including Start-Off Assistant all featured as standard. Dynamic Traction Control (DTC) including electronically controlled limited-slip differential function on the drive wheels available as an option.

Crash-optimised body structure with newly conceived floorpan and A-pillars and side-sills appropriately reinforced for a convertible. Body stiffness further improved over the former model, with a reduction in vehicle weight by 10 kg or 22 lb. Three-point inertia-reel seat belts on all seats, with belt latch tensioners and belt force limiters at the front, frontal airbags, head/thorax airbags at the side integrated in the seat backrest, rollover sensor masterminding the rollover safety system, airbags and belt latch tensioners optimised in their function. Runflat tyres and Tyre Defect Indicator.

Engine variants:

MINI Cooper S Convertible:

Four-cylinder petrol engine with twin-scroll turbocharger and direct fuel injection.

Capacity: 1,598 cc

Max output: 128 kW/175 hp at 5,500 rpm

Max torque: 240 Nm/177 lb-ft from 1,600-5,000 rpm

(260 Nm/192 lb-ft with Overboost)

Acceleration 0-100 km/h: 7.4 sec
Top speed: 222 km/h (138 mph)

Average fuel consumption to EU standard: 6.4 litres/100 km (equal to 44.1 mpg imp), CO2 rating: 153 g/km

MINI Cooper Convertible:

Four-cylinder petrol engine with fully variable valve management based on the BMW Group's VALVETRONIC technology.

Capacity: 1,598 cc

Max output: 88 kW/120 hp at 6,000 rpm.

Max torque: 160 Nm/118 lb-ft at 4,250 rpm.

Acceleration 0-100 km/h: 9.8 sec
Top speed: 198 km/h (123 mph)

Average fuel consumption to EU standard: 5.7 litres/100 km (equal to 49.6 mpg imp), CO2 rating: 137 g/km

And you can see the latest addition to the MINI range on Saturday 28 March at COTSWOLD HEREFORD Roman Road, Hereford HR1 1LN.
